SUMMARY

Enterprise UX Designer with 6+ years of experience leading UX strategy, user research, and product design for complex enterprise platforms. Building on 20+ years of web, mobile, and product design across industries. Proven success delivering scalable, user-centered solutions that improve operational efficiency, product quality, and user experience through evidence-based design, systems thinking, and cross-functional collaboration.

Passionate about modernizing UX practices through AI-enabled workflows that accelerate research, prototyping, and design validation while maintaining a strong focus on accessibility, usability, and measurable business outcomes.

STRENGTHS

UX Leadership & Strategy: UX Strategy • Product Discovery • Design Thinking • Enterprise Product Design • Cross-functional Leadership • Stakeholder Facilitation • Design Operations

Research & Experience Design: User Research • Usability Testing • Information Architecture • Interaction Design • Wireframing • Prototyping • Journey Mapping • Accessibility (WCAG)

Design Systems & Product Delivery: Design Systems • UX Analysis • Product Strategy • AI-Enabled Design Workflows • HTML/CSS

Tools: Figma • FigJam • Dovetail • Cursor • ChatGPT • GitHub • Jira • Confluence • Miro • Supernova • Adobe CC

EXPERIENCE

Strategic Education, Inc. (Strayer University, Capella University) | Minneapolis, MN

UX Designer (Enterprise Platforms)

December 2023 – June 2026

- Led end-to-end UX for a greenfield enterprise curriculum platform including catalog discovery, curriculum authoring, and course management. Replaced legacy workflows for 7+ schools, 50+ academic programs, and hundreds of internal users.
- Designed curriculum authoring and course management modules including offering setup, competencies, duplication, and accreditation validations. Validated design with 30+ academic stakeholders through weekly Power User sessions before engineering handoff.
- Modernized UX practices by integrating AI into research synthesis, code-based prototyping, and MVP validation, reducing research synthesis and prototyping time by 50%.
- Planned and facilitated multi-method UX research on Capella's FlexPath Competency Map and competency-based grading, combining coach interviews, learner surveys, and CX support analytics. Synthesized findings into evidence-based product recommendations.
- Led the evolution of the Canvas design system used across Strayer, Capella, and JWMI, trained 30+ learning technologists.
- Contributed to enterprise Canvas usability benchmarking and established UX standards across the organization.

Interactive Designer

July 2017 – December 2023

- Led UX research and usability testing of published interactive activities by conducting 5 studies. Findings were used to improve feedback, navigation, and multi-page activity patterns used platform-wide.
- Designed reusable interaction patterns, templates, and workflows for an interactive media authoring platform. The platform produced 1000+ activities across FlexPath, Guided Path, and Strayer. Patterns included quizzes, video, branching, card sorting, and more. All were built with WCAG-compliant learner-facing components.
- Led UX strategy and redesign of in-context learner feedback survey at activity completion. Pilot response rates rose from ~0% to 10.3% and improved qualitative and satisfaction insights.
- Designed and developed accessible web applications using wireframes, prototypes, and HTML/CSS.
- Conducted UX and accessibility audits that improved consistency and usability across digital learning products.

Robert Half, The Creative Group | Minneapolis, MN

UI/UX Designer

June 2016 – July 2017

Completed multiple contracts as part of Robert Half's Salaried Professional Services.

Thrivent Financial | Minneapolis, MN**Email Developer (Contract)**

October 2016 – November 2016

Developed responsive marketing email templates and landing pages in HubSpot for Thrivent's cuLearn program. Built reusable email components and tested templates across email clients for rendering consistency and deliverability.

Christopher and Banks | Plymouth, MN**UI/Web Designer (Contract)**

June 2016 – September 2016

Designed and implemented UI updates for the e-commerce site in Demandware (Salesforce Commerce Cloud). Produced HTML and CSS for category pages, promotional modules, and responsive layout updates.

Schwan's Food Company | Bloomington, MN**UX Designer (Contract)**

May 2016 – June 2016

Created wireframes and mockups to refine the e-commerce checkout flow and contributed UX recommendations on layout, step progression, and content hierarchy.

Colder Products Company (CPC) | Roseville, MN**Design and Production Artist**

August 2014 – August 2016

Designed and coded responsive HTML email templates and web/print assets for B2B marketing, product launches, and sales enablement.

Drebenstedt Consulting | St. Paul, MN**UI Designer**

August 2014 – August 2016

Designed UI for Angular-based web applications from wireframes through visual design and front-end implementation. Built HTML, CSS, and Angular templates for workflows, forms, and dashboard-style interfaces.

Accurate Image Marketing | Minneapolis, MN**UI Designer, Production, and Project Manager**

May 2000 – July 2015

Designed and maintained iOS, Android, and web applications for 30+ clients over 15 years. Led end-to-end delivery as designer, production artist, and project manager including wireframes, prototypes, and HTML/CSS implementation.

EDUCATION**School of Communication Arts | Minneapolis, MN**

Associate of Applied Science, Multimedia/Graphic Design ·
1996 – 1998

CERTIFICATIONS**UX Certified (UXC)**

Nielsen Norman Group · 2021 · Specialization: UX Research
